FLOREAN MUSEUM

Mail Art Project THE LANDSCAPE

Send the most beautiful landscapes you can turn into a post-card as **MAIL-ART**.

We are in fact interested in the artist's perception of the "landscape" at the beginning of this millennium.

All works will be exposed in September 2004 in a special pavilion once with the opening of the sixth Small Engraving International Salon, organized by the **FLOREAN MUSEUM**, www.cmc.ro.

The works will then enter the contemporary art collection of the Florean Museum, mail-art section, and will constitute a point of view concerning the landscape, such it is discerned by artists in 2004.

The exhibition will be itinerated in the most important cultural centers in Romania and Europe.

Send us as much MAIL-ARTS as you can or as least as possible (as you prefer) on the address:
