Education

International Exhibition

International Awards

“The SEOUL_SPACE International Print Biennial”, which has been much loved by many local and foreign printers for over two decades, celebrates its 14th anniversary. Meanwhile, the biennial has found many fresh and promising print artists, while expanding the base for print works and promoting the genre of art.

Since 2002, in order to encourage the print artists to be more imaginative with their works, the biennial began to allow larger size print works than the conventional ‘small size’ of 10cm, while drastically raising the prize money. As the result, the biennial has been established as a reputable international print exhibition true to its name.

We are determined to make this 14th biennial a more exciting arena for international exchange of art. We believe that “the SEOUL_SPACE International Print Biennial” will continue to play a valuable role in upholding the spirit of culture and art which SPACE GROUP has pursued continuously.
